CKA/CKAD : Complete Certification Guide

Why to Avoid Multi-Container Pod

certified

kubernetes

CKA/CKAD : Certification
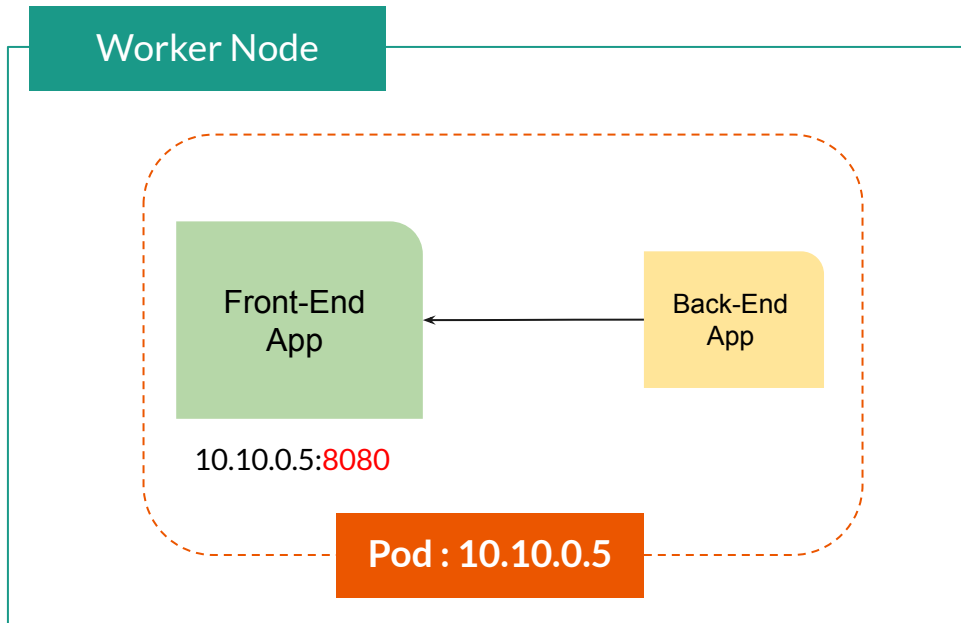

Network Layer in Worker Node

CKA/CKAD : Certification

➢ K8s Best Practice : POD should contain only one Container per Pod.

- ○ No Cluster Resource Utilization, as Pod can't be split.

- ○ Can't scale specific Container if required.

- ○ Difficult to Configure.

Thank You...

Don't be the Same! Be Better!!!
